DETAILED ACTION

The following action is in response to the amendment filed for application 10/680,043 filed on August 3, 2005.

Allowable Subject Matter

Claims 6-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the epicyclic gear system as claimed, and particularly including a groove separating the shank and the head, such that the pin is cantilevered from the center flange; an inner race which is attached to the head of the pin and extended back over, yet spaced from the pin at the groove; and including the remaining structure of claim 13. The present invention also particularly includes a pin having an annular groove located between the shank and the head, and including the remaining structure of claim 17. The present invention also particularly includes a race sleeve that fits over and is fastened to the head of the pin, having two inner raceways and also a thrust rib at one end of the sleeve, and including the remaining structure of claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
